

TMI's Competitive Telecom Market Watch summarizes rate changes filed by major LECs and IXC's nationwide. Subscribers can easily track tariff price and product changes, and winback initiatives.

TMI Competitive Telecom Market Watch

Stay abreast of the latest products and rate changes that could affect your marketing plans through this monthly newsletter. Avoid the hassle and expense of reviewing tariff filings nationwide.

TMI's **Competitive Telecom Market Watch**, a monthly email newsletter service, provides an overview of important tariff filings. The **Competitive Telecom Market Watch** summarizes rate changes filed by the major LECs and IXCs nationwide, including detariffed interstate, and international rate plans for residence and business customers.

Sections include:

LEC Watch
IXC Watch
Access Rate Watch
Package Watch
Plan Watch
- and -
LEC Winback

Plans and **Packages** are summarized concisely, offering valuable competitive information. New industry fees and fee structure changes are provided on a timely basis.

The **LEC Winback** section assists you in tracking residential and business winback offerings easily, and is organized by LEC region. This section includes details of the type of offer – *free service trials, products, credits, waivers, and reimbursements or other incentives.*

Recommended for

Providers of telecom services, agents and master agents or individuals wishing to monitoring the competition!
